RETROFIT PARTS FOR PROGRESSIVE CAVITY PUMPS

Hydro Prokav Pumps takes its place among the largest manufacturers of Progressive Cavity Pumps. Our expertise in designing and manufacturing ensures you of an extensive range of Retrofit Spare Parts for Progressive Cavity Pumps of all types. With its enhanced engineering technology, Hydro Prokav does not merely re-engineer- it gives distinct solutions. Hydro Prokav is always preferred by users of PC Pumps for its quality that exceeds expectations, each time.

Progressive Spares for

Rotor

Stator

Parts

Netzsch[®] | Mono[®] | Seepex[®] | Moyno[®] | Allweiler[®] | Wangen[®]

Material Options

ROTOR

Stainless Steel, Tool Steel and Exotic Alloys

STATOR

Natural, Nitrile, Food Grade White Nitrile, HNBR, EPDM, Chlor-Sulphonated Elastomer, Fluoroelastomer and AFLAS

Other Parts

Stainless Steel, Tool Steel and Exotic Alloys

Coating Options

Hard Chrome Plating, Chrome and Other Special Hard Coatings

Twenty Years of Expertise

The foundation of Hydro Prokav's superior quality products lies in its understanding of the functionality of the vital parts of machinery, materials, and manufacturing processes. Another specialty of Hydro Prokav is its stators. The company has been producing stators in-house ever since its inception, which very few others have managed to do. Hydro Prokav makes its own compounds, and is also equipped with the facility to manufacture moulds, according to varied shrinkage patterns. The above factors, combined with strict process controls, enable Hydro Prokav to produce stators unmatched in dimensional precision.

Netzsch[®], PCM[®], Seepex[®], Alweiler[®], Roto[®], CSF[®], are registered trade marks Netzsch Mohno Pumpen GmbH, PCM Pompes, Robbin Myers Inc, Seepex GmbH, Alweiler AG, Roto Pumps Ltd, CSF Inox S.p.A. Hydro Prokav is not an authorized Distributor of parts or services for the products of Netzsch, PCM, Moyno, Seepex, Alweiler, Roto & CSF. Hydro Prokav Pumps Pvt Ltd products are not associated with, endorsed by, or sponsored by these companies.

Technology

Hydro Prokav's state-of-the-art manufacturing infrastructure and proven technology ensures that all components are manufactured using high quality materials, workmanship and surface treatment processes.

Quality Systems

Hydro Prokav seeks to evolve consistently. The effort put into the enhancement of the measuring instruments, testing facilities, quality systems and the controlled process environments are proof of Hydro Prokav's endeavor to bring out only the highest standard, state-of-the-art interchangeable parts. The manufacturing units conform to the ISO 9001-2015 Quality Surveillance Systems.

The ADVANTAGE

**Rich expertise + Technology + Quality = ENSURES
Higher Efficiency | Longer Life | Guaranteed Quality**

Customer Support

Hydro Prokav has a global network of its own offices and distributors equipped with planned inventories and trained professionals. Hydro Prokav can provide quick support for urgent deliveries, pump rebuilds and help in solving your specific pumping problems.
